

2GO Software Solutions and EFNT join North Texas businesses at Freedom Day 2008 to honor area firefighters on September 11

PLANO, Texas – September 10, 2008 – **2GO Software Solutions Inc** (www.2gosoftware.com) announced today that they will be closing its offices for business tomorrow in memory of the lives lost seven years ago on September 11.

Rather than come to work on September 11, the entire staff of 2GO Software Solutions will be combining their efforts with the **Entrepreneurs Foundation of North Texas** (EFNT) (www.efnt.org) to honor the firefighters of New York City through “**Freedom Day 2008**” (<http://www.efnt.org/content-freedomday.asp>). During the event, more than 400 volunteers from companies in North Dallas, such as 2GO Software, will help improve conditions at six area fire stations by adding fresh coats of paint; sanding and refinishing banisters, lockers and fences; laying new floor tiles; and much more.

“2GO Software considers it our corporate mandate to serve our families, communities, countries, globe, and lastly our business,” said Anthony Davis, CEO of 2GO Software. “We are thankful to EFNT for providing the opportunity for us to join such a magnificent group of servant leaders within our community in honoring the firefighters who protect us during such tragic events as those that occurred on September 11 in New York City.”

Pam Gerber, executive director of the Entrepreneurs Foundation of North Texas, calls volunteering “one of the most uniquely American things we can do,” adding “this year’s service project is especially meaningful, considering these are the people that risk their lives for our community every day. The work accomplished on Freedom Day is more than just giving a ‘face lift’ to the stations, it’s a chance for people to unite for a single cause and being a part of it gives everyone an amazing sense of accomplishment.”

The six Dallas firefighting stations benefiting from donations of supplies and volunteer labor during **Freedom Day 2008** include:

- Station #3 at 500 North Malcolm X Blvd
- Station #11 at 3828 Cedar Springs Road
- Station #16 at 2616 Chalk Hill Road
- Station #37 at 6742 Greenville Avenue
- Station #43 at 2844 Lombardy Lane
- Station #46 at 331 East Camp Wisdom Road

About 2GO Software:

Based in Plano, Texas, 2GO Software Solutions is the developer of on-demand mobile applications for businesses that deploy field service and field sales associates. The 2GO Software mobile platform is unique in that it can be integrated into existing software platforms in days or weeks versus the months or years required by traditional mobile platforms. For more information about 2GO Software, visit the company web site at www.2gosoftware.com.

About Entrepreneurs Foundation of North Texas:

The Entrepreneurs Foundation of North Texas promotes and facilitates community involvement and philanthropy for companies. As a fund at Communities Foundation of Texas, EFNT makes it simple for companies to give back to the community by assisting with organizing volunteer activities for employees, and hosting networking events for senior level management of companies to help grow and strengthen its network of "good corporate citizens." In establishing a relationship with EFNT, a company networks with like-minded philanthropists while contributing to the greater good of the community. Today there are more than 80 companies in North Texas participating in EFNT, and more than 40 underwriters significantly supporting the effort. Additional information about EFNT is available online at www.efnt.org.
